Candidate Interest Statement for Board of Directors

As a member of the Board of Directors I believe that my personal pursuits in embracing an active and healthy lifestyle at Desert Horizons, combined with my professional career of executive and financial leadership will help all members put an emphasis on friendship and inclusivity.

Susan and I purchased our home in Desert Horizons in January 2020 because of the location, mountain views, organized activities, and the friendliness of those we met during our tours. We participate in a wide range of club activities including pickleball/tennis, men's/women's golf clubs and members of the wine, bocce, reading, and women's clubs.

What experience do you have that you feel will be a benefit to your community?

I currently serve on the Desert Horizons Board of Directors, am a member of the Finance Committee, Chair of the Courts Committee and was Chair of the Ad Hoc Food & Beverage Committee. Over the past three years I was involved in the oversight of the Renewal Project, clarified the terms of merger between the Country Club and HOA, supported the rollout of a Community Member Survey, and was the lead proponent in trying to have an outside firm consult on our food and beverage operations.

I am a CPA (inactive), serve on the finance committee of Sunriver Owners Association, a 4,600-home resort community and was a former treasurer and transitional president of a sub-community within Sunriver.

Please tell us why you would like to serve on the DHOA Board of Directors.

From my experience on the Board these past 3 years my future focus will be on the following Strategic Goals and Objectives that I believe will bring the community closer together:

- **Maintain Competitive monthly assessments by keeping annual increases to an appropriate cost of living index.**
- **Build Trust by conducting regular member satisfaction surveys to confirm or identify community needs and to provide regular feedback to members on actions being taken.**
- **Offer greater opportunities to residential members to be involved in the golf club that will financially benefit the golf club, enhance overall member experience and increase community satisfaction. Offering attractive limited packages allows for greater use of our course during non-prime playing time for resident members who have golfing limitations due to age, physical capabilities or even full-time working restrictions.**
