

Mark Bonebrake Bio

In my 40+ year professional career (city planner, research consultant, research director, small business owner) I have been drawn to positions that require leadership, cooperation, and problem-solving skills. I would like to use these skills to continue serving the Desert Horizons community.

I am currently completing my sixth year as a Board Director. For five of those years, I was Maintenance Committee Chair, overseeing the planning and execution of programs for street paving, house painting, roof maintenance/replacement, and the repair and upgrade of 10 pools. I also served as VP of the Renewal Committee, Security Committee Chair, and 2020-2021 Ad Hoc Pool Committee Chair.

My objectives for the next three years are:

Better Facilities & Staff Support: Develop a long-range facilities plan, align reserves with future needs, and support staff training to enhance service quality and community satisfaction.

Grow Golf & Social Memberships: Increase full golf memberships, and expand social memberships, to strengthen long-term financial stability.

Restore Trust & Representation: Reverse reductions in committees and Board participation to increase owner involvement.

Infrastructure Investment: Continue long-range planning and cost-effective maintenance to preserve property values and keep the community looking its best.
